I am a resourceful, creative and passionate individual who is motivated to succeed. I adapt easily to new situations which helps me learn and quickly overcome challenges. I possess a very sociable personality which is essential for effective team work. I enjoy solving problems and I am eager to improve the quality of the products that I work on.

Employment

March 2019 - Present **Web developer, Global, London**
- Building new software product features and taking ownership of the work using technologies such as React, NextJS, Storybook, Webpack and Docker
- Integrating third party functionality and maintaining previous completed projects on both sides - front end and back end - by utilising technologies including Python and Django.
- Writing and maintaining unit and Integration tests using Jest, React testing library and pytest

August 2017 – March 2019 **Front-end Developer, Dusted, London**

- Building reusable code for future use, optimising projects for maximum speed and scalability (using HTML, CSS/SCSS, JS (ES6), PHP, REST API, WP API, Gulp and GIT)
- Working closely with designers, developers and writers to update websites and help organise the generation of new websites
- Helping the team execute tasks on different CMS platforms (WordPress and Drupal)
- Recognising opportunities for improvement of current websites reviewing SEO, content, coding and other aspects

March 2015 – August 2017 **Web Developer, Foundry Digital, London**

- Responsible for building projects start-to-finish according to various clients' needs
- Development of the front-end of projects (using HTML, including the use of bootstrap, CSS and JS/JQuery)

- Development of fully customized themes and functionalities using back-end languages (PHP, MySQL and WP API)
- Working as a part of a small team to produce new projects, graphics or icons (using Adobe Illustrator and Adobe Photoshop)
- Improved my ability to complete projects on my own with limited resources

October 2009 – December 2014 **Graphic Designer, Grade Line, London**

- Involved in planning, designing and customising of different projects
- Running quality control before products are sent for finalisation
- Learnt how to work under pressure and make quick appropriate decisions in crisis
- Perfected my time-management and team-working skills
